ANNUAL MEETING I, O. O. F. Grand Lodge to Meet in Winsted-Secretary

Bishop's Report. The grand lodge of Odd Fellows will hold its annual meeting in Winsted on May 13, when the officers will be elect-

Leopold DeLeeuw, the present grand master, will be succeeded probably by David Alling of this city, who is deputy grand master this year; L. H. Ful-ier of Putnam will be elected deputy grand master, and John Blair of Waterbury will be made grand warden. No new lodges have been founded dur-

ing the year, but the seventy-five existing lodges all show large gains in mem-

Road Commissioner James Bishop, secretary of the corporation of the Odd Fellows' home, has prepared his report to be presented at the meeting of the corporation which will be held May 14

Moneys received from lodges, \$11,103.-35; sale of produce, \$25.10. The home has been paid for and all bills have been paid and the treasurer of the corporation has \$21,000 on hand.

OBITUARY.

Death of Joseph Mills True. In the death of Joseph M. True, which occurred yesterday morning at about 5 o'clock at his home, No. 20 Olive street, where he had resided for thirty years, an estimable citizen has passed away. The news of his death will bring sadness to many hearts, as the deceased was quite widely known in the city, man, a kind friend and neighbor and a man who won friends everywhere. He had not been in the best of health for a year or more. He was taken ill about three weeks ago and despite the best medical skill and tender, devoted care, the disease proved intractable, and he passed away. He was for many years a member of the First Baptist church. He was a native of Deerfield, N. H., and moved when a lad to Garland, Me., where he spent his youth. He was for quite a number of years the leader of the choir of the church which he attended in Garland, He began business life in Boston, Mass. He came to this city about thirty-five years ago, pursuing here the business of manufacturing and selling proprietary medicines. He leaves widow and four children, two sons and two daughters. The sons are B. F. True of Sacramento, Cal., and Ralph of this city. The daughters are Mrs. John-S. Fowler and Miss Annie True. The funeral services will occur on Wednes-day afternoon at 2:30 at the residence,

Death of Mrs. J. C. Hubinger. Mrs. J. C. Hubinger, wife of J. C. Hu-

No. 20 Offive street.

binger of Keokuk, Ia., dfed at her home in that city at 4:40 o'clock Saturday morning after an illness of ten days, caused by typhoid fever.

J. C. Hubinger is a brother of Joseph and Nicholas Hubinger of this city. He went to Keokuk from New Haven about seven years ago. The maiden name of the deceased was Miss Sadie Watts and her home before marriage was in Philadelphia. She was a lady of the highest character and most lovable disposition, and had many friends here and in the city of her home. She leaves three children, one of whom is only two months old.

At the Church of the Messiah.

Rev. Mr. Emory of Bridgeport exchanged pulpits with Rev. W. F. Dickerman of this city and preached an admirable sermon yesterday morning in the Church of the Messiah. His subject was, "What Did Jesus Teach?" In the evening Rev, Mr. Dickerman gave the first of a series of illustrated lectures on the Holy Land, which was much enjoyed by the large congregation pres-

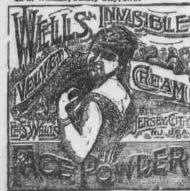

Heasing effect of the most EAURELLE OIL BALM wi

NEW CHART OF THE HARBOR

THE CHART RECENTLY ISSUED COMPARED WITH THAT OF 1840.

New Chart Made by Ex-Superintendent Mendenhall and Takes in the Whole of New Haven Harbor, Includes Fair Haven, Westville and Part of Several Towns Captain Charles H. Townshend has n his possession an advance sheet of the new coast survey chart of New Haven harbor and its approaches, bear-

ing date April 30, 1895, which shows interesting data when compared with the old Hassler chart which was constructed from a survey made by the United States government between the years 1840 and 1845. The new chart is a very valuable production, as it is an exhibit of the best hydrographical and topographical work known to chart makers of the present date.

The chart is drawn on a scale of one-twenty thousandth and was made under the direction of ex-Superintend-ent T. C. Mendenhall, LL. D., super-intendent of the United States coast and geodetic survey, and completed by the present superintendent, General W. W. Duffield. Verefied by Andrew Braid, assistant in charge of office, and Lieutenant Commander Jeff F. Moses, U. S. N. inspector of hydrography.

This new chart takes in the whole of New Haven harbor from the extreme orthern limits of the town of New Haven, including also the city, the borough of Fair Haven, the village of Westville and parts of the towns of was dute watery and a man being ever a genial, companionable Milford, Orange, Woodbridge, Humden man a kind friend and neighbor and a North Haven and the annexed districts "Raynham" and "Morris Cove," extending the hydrographical section into Long Island Sound, as far as the state line, between New York and Connecti-

On this chart seaward the soundings have been made with the greatest care the depth and quality of the bottom carefully noted with every rock, light-house, buoy and landing located by triangulation and the best method known to surveyors of this date.

The breakwaters so far as constructed are clearly shown; and the good work done by the United States engineers in way of harbor of refuge and deepening the channel is clearly shown-when the new chart is compared with the old

For distance the channel over Crane's Bar in the chart of 1840 shows oneeighth of a mile wide and seven feet depth at mean low water. On the chart of 1895 one-quarter of a mile wide and seventeen feet deep at mean low water and in the channel near Southwest Ledge lighthouse the old chart gives wenty-two feet at mean low water, while the new chart shows clearly twenty-five feet, twenty-seven feet and one mile south thirty feet, where it rapidly deepens to fifty feet at low water and allowing for mean rise of the tidal wave seven feet give New Haven harbor a depth which with little dredgng will accommodate the deepest draft ressels of the world, whether fron clad pattleships or merchant steamers. The former, of course, would anchor in the new roadstead back of the west breakwater off Savin Rock, which shows in one place thirty feet of good holding ground, with an area of several square

The topography is beautifully executed. Every town, highway, city, borough, village, street, ellfice or buildcuted. ings all exactly located, the farm land with fences, ditches and monuments all in exact position and anyone now wishing to get a knowledge of outlying lands or city lots can use this chart to

very great advantage.
This chart shows the latitude of Long Wharf lighthouse, 41-17-34N; longitude,

Variation of the compass, 9%W in

TIDES.

The plane of reference is mean low Average time of high water after noon's passage at Long wharf, 11:08. Average time of low water after noon's passage at Long wharf, 4:54. Average height of high water above

he plane of reference, six feet.

All elevations are referred to high water and are expressed in feet and by contour lines, showing successive differences of twenty feet.

With the foregoing abridged outline of this chart we may make mention f the fact that this splendid and use ul production is the result of an effort nade by the harbor commissioners supported by the chamber of commerce and the city government, ending a work that New Haveners may be justly

WALLINGFORD.

About forty delegates from different dasonic lodges in various sections of he state were at the Masonic home on the west side on Saturday, and all appeared surprised and pleased at the pleasant location and complete arrangements of the home, and were uite enthusiastic over the grounds and eautiful scenery and grand view from the house and the well in the rear. All ronounced the place a model location or the home.

The Wallingfords were badly defeat d by the Edgewoods in Westville Saturday by a score of 17 to 8. The home team scored thirteen runs in one inning when they solved Pitcher Casey's delivery, assisted by several errors.

There was a burst in the water main at the east end of Community bridge Saturday afternoon, and for a time the water from Paugh pond mingled with the water in the take. The water was shut off the street and the damage repaired. Benjamin Smith has sold to Albert M. Hill four acres of land down Northford way. The purchaser propos-

es to open up a quarry.
Albert Guyott, of Oak street, has gone to Canada for a week's visit. F. C. Allen returned yesterday to his amily in Philadelphia. F. A. Wallace returned Saturday vening from South Dakota, after an

absence of several months.
William Dickinson caught a big tring of bullheads in the lake Saturday. These fish are not quite us aris ocratic as the trout, but many prefer

them for eating.

A lodge of Ancient Order United Workmen will be organized here on Thursday evening, May 16. Miss Emma W. Hadkinson, of New

Haven, began her duties yesterday as oprano in the Baptist church. The selectmen will hold their monthly recting to-day.

The board of burgesses will meet to orrow evening.

NAPOLEON,

ONCE ASKED FOR AN OPINION,

Gives a Graphic Description of His Ideal Woman. Mothers Please Note. [SPECIAL TO OUR LADY BEADERS.]

In response to a question asked by a lady, the great Napoleon replied,—

My ideal woman is not the beautiful-featured

society belle, whose physician tries in vain to keep her in repair, nor the fragile butterfly of fashion, who gilds the tortures of disease with a forced smile.
"No! my ideal is

a woman who has accepted her being as a sacred trust and who obeys the laws of nature for the preservation of her body and soul.
"Do you know,
my knee involuntarily bends in homage when I meet the matron who reaches middle age in com-

plete preservation. "That woman is rendered beautiful by perfect health, and the stalwart children by her side are her reward. That's my ideal woman. To grow to ideal womanhood the girl-hood should be carefully guarded.

Mothers owe a duty to their daughters that in too many cases is neglected. Nature has provided a time for purification; and if the channels are obstructed the entire system is poisoned, and mis-

ery comes. At a mothers' meeting the wife of a noted New York divine said to her listeners: "Watch carefully your daugh-ters' physical development.
"Mothers should see that Nature is

assisted, if necessary, to perform its office, and keep their daughters well informed as to matters concerning themselves."

Irregularities, from whatever cause, are sure indications of organic trouble. With irregularities come disturbance of the

stomach and kidneys. Violent headaches often attack the

victim; pains shoot every-where. Exwhere. treme bility follows quickly, and then utter despondency overwhelms the already over-burdened life.

CA Unless the obstruction is removed at once, your daughter's whole future will be darkened. 'Lydia E. Pinkham's Vegetable Compound will accomplish the work speedily. It is the most effective remedy for irregular or suspended action known.

mpass lodge, No. 9, F. and A. M., will hold its first regular meeting in the new lodge room this evening and work he third degree.

A thirty foot racing shell was received here Saturday, and later in th season, when the water gets warmer, will be placed on the lake for the oars-

nen to practice in.
Miss Belle Chapman, who has been he guest of Mrs. W. A. Trask of Main treet, returned Saturday to her hom n Newburg, N. Y.

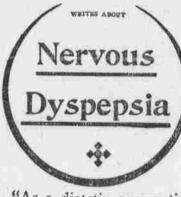

Through the enterprise of the Village Improvement society, the street sprink fer has begun operations for the season

April Showers Bring Forth May Flowers."

So wrote the poet, long since, and each recurring April verifies it. Already the buds are peeping out and soon "nature will put on her beautiful garments" the traces of winter will vanish, and presently earth and shrub and tree will be the traces of winter will vanish, and presently earth, and shrub and tree will be "arrayed in living green" and "the desert will bloom and blossom as the rose," But during all seasons people must live. And in order to support life and properly nourish "The house we live in" it is indispensible to eat GOOD BREAD. Root, the Baker, was the first to introduce, in this city, the celebrated Quaker Bread which has become so deservedly popular. At great labor and expense he litted up the proper apparatus to mix and bake it by the Original Process. And he succeeded so well that it is now known as the

BEST BREAD IN THE STATE.

It is made from absolutely pure materials and contains ingredients (one of which is Malt) that render it not only sweet and palatable, but also easy of diestion and very nutritious. It can be eaten fresh without injury to the most delicate stomach. For sale
